

2024 China Tyre Analysis conference

Dear friends from tire and its upstream and downstream enterprises :

We are honored to invite you to participate in “2024 China Tyre Analysis conference”. The conference will be held in Hefei City of Anhui Province from May 29th to June 1st, 2024.

The conference was sponsored by the China National Tyre Quality Inspection Center (CTQI) ,which was established in 1987. CTQI is engaged in tyre analysis and quality appraisal, accident analysis for many years and analyze more than 10 tyre specifications every year, contain well-known brands of car tyres and truck tyres at home and abroad. CTQI accumulates rich practical experiences, which provides an important reference for quality upgrading and performance optimization of tyre products.

CTQI organized by the State Administration for Market Regulation holds an annual tire analysis conference. In 2024, it will focus on the development trend of tires and industry needs , strive for a new chapter.Main topics are as follows:

1. Low Carbon and Sustainable Development in the Domestic and Foreign Tire Industry. Director of the International Cooperation Department of the Ministry of Industry and Information Technology,Mao Tao.
2. Main quality problems in tire production and suggestions for the development of self repairing tires.Director and Senior Engineer of China National Tire Quality Inspection Center,Ma Liangqing.
3. Development and Requirements of Automotive Chassis and Tire Matching. Chief Engineer of Chassis Design at Design Institute of JAC Group ,Hu Guanghui.
4. Finite element and mechanical analysis of tires.Professor from Harbin Institute of Technology,Wang Youshan.
5. Self sealing tire technology. Anhui Hefei Continental tire.
6. Interpretation of the Analysis Report on Truck Tires. Technical Director of Jiangsu General Science Technology Co.,Ltd,Ye Li.
7. Introduction to the new mandatory national standards GB 9743 and GB 9744. Secretariat of the National Tire and Rim Standardization Technical Committee.

China National Tire Quality Inspection Center

8. Interpretation of Analysis Report on Car Tires and Electric Vehicle Tires. Director of Zhongce Rubber Radial Tire Research Institute, Ren Fujun.

9. Development and Technology of Aircraft tires. Researcher of Changchun Yinghua Institute, Chinese Academy of Sciences, Sheng Baoxin.

10. Structural Design of Load Truck Tire Beads. Director of the Basic Research Office of Guizhou Tire Technology Center, Jiang Zhongkai.

11. The Evolution and Future Development Trends of Antioxidants in Tires, Senior Manager of Sennics Co., Ltd., Gao Yang.

12. New Materials Applied in Tires at Home and Abroad. Senior Engineer of CTQI.

13. Application of chromatography in tire analysis. Senior Engineer of CTQI.

14. The Impact of Tire Anatomy on Physical Performance Testing. Engineer of CTQI.

15. How to achieve digital security and intelligent innovation in the tire industry under new quality productivity? Aerospace Huako Information Technology (Beijing) Co., Ltd

At the meeting, you will exchange information with experts who have rich practical experience. At the same time, More than 120 representatives will attend the meeting who are from major tyre enterprises, Auto Group, additives enterprises, and so on.

Sincerely look forward to your visit and participation!

Schedule:

May 30, 2024 Full day meeting.

May 31, 2024 Meeting on the morning; Visiting JAC and NIO on the afternoon.

June 1st, 2024 Meeting on the morning; Return trip on the afternoon.
